- Demo：88
- Metronome：1/4,2/4,3/4,4/4.
- Number of recorded notes：10000 notes.
- Interface：USB/MIDI，Headphone，Microphone，Audio input/output.
- Audio output power：25W*25W.

Preparation before use

Power Connection:

1. Specifications of power adapter: 100-240V AC input; 15V/3A output.

2. The electric piano supports AC power supply and comes with lithium battery.
3. The indicator light is red when it is charging, and when it is full, it turns green.
4. Press the power button to turn on the electric piano, and the "Grand piano" will appear on the screen.

Note: If the electric piano is not used for a long time, please press the power switch to turn off the power of the electric piano. Otherwise, the life of lithium battery will be lost.

Volume adjustment:
Turn the "encoder/Volume knob" to adjust the volume.

Interface:

1. Headphone. The electric piano has an external socket for headphones, which can be connected.
2. Microphone. The Electric piano has microphone external socket, can be connected to the microphone while playing while singing; (Use a dynamic microphone)
3. Line Out. The line output interface can be connected to other audio equipment, for amplification, recording, etc.
4. Line Input. The line input interface can be connected to other audio equipment, and the audio signals provided by other audio equipment can be amplified by the audio system of the piano
5. USB MIDI. Through the USB interface, the piano is connected to the computer and other devices, using the application software on the computer, recording, arranging and other work.
6. U disk. Insert the U disk with MP3 files, you can play with the music.
7. Pedal. Single pedal function: the pedal is a sustain pedal. The sound will be prolonged when the pedal is pressed down.
8. Three-pedal function:

   -Soft pedal: After pressing down, the keyboard playing sound will become weak.

   -Sostenuto: Hold down the notes that need to be extended and then press the pedal. The notes will be prolonged, and the other notes will not be prolonged.

   -Sustain pedal: After the pedal is pressed down, the sound will be prolonged.

FUNCTION

Tone

1. Encoder selection: Press and hold the "Tone" button, and rotate the encoder button to select the Tones from 000-168 (Includes 9 percussion instruments) (see the appendix for details)
2. Back to the piano tone: Press the "Tone" button to return to the piano tone.

Preset1

1. After selecting the desired tone, long press the "Preset 1" button, the screen display 1-SAVED indicates that the newly selected tone has been stored in the "Preset 1".
2. Short press the "preset 1" key to recall the tone stored in the preset 1 and use it as the main tone.

Preset2

1. After selecting the desired tone, long press the "Preset 2" button, the screen display 2-SAVED indicates that the newly selected tone has been stored in the "Preset 2".
2. Short press the "preset 2" key to recall the tone stored in the preset 2 and use it as the main tone.

Metronome

1. Start/stop the metronome: Press and release the "Metronome" button to start or stop the metronome.
2. Select the metronome tempo: Press and hold the "Metronome" button, then turn the encoder to adjust the metronome tempo.
3. Select the metronome type: Press and hold the "Metronome" button, then press one of the four white keys starting from middle C to select 1/4, 2/4, 3/4, or 4/4 metronome type.

Rec/Play

1. Recording: Press and release the "Rec" button to start recording. Play the keyboard to record the notes. Press the "Rec" button again to stop recording. Press the "Play" button to start playback.
2. Recording a specific song: Hold down one of the 16 white keys on the far left of the keyboard, then press the "Rec" button to start recording a

specific song. Play the keyboard to record the notes. Press the "Rec" button again to stop recording. Up to 16 songs can be recorded.

3. Playback of a specific song: Hold down one of the 16 white keys on the far left of the keyboard, then press the "Play" button to start playing a specific song.

Multi-track recording of a specific song.

Hold down one of the 16 white keys on the far left of the keyboard, then press the "Rec" button to start recording a specific song.

The instrument is ready to record if the screen displays "Recording".

Press the "Play" button to enable multi-track recording: the display shows "Track+".

Play the keyboard to start recording, the original recording track automatically play, after recording, press the "record" key, stop recording.

Press the "play" key, play the songs you recorded.

Note: The total number of notes that can be recorded is up to 10,000 and they will not be lost in the event of a power outage.

Transpose

Hold down the "Function" and "metronome" keys at the same time, the screen displays -12...12 setting value, rotate the encoder to select it.

Reverb

Press and hold the "Function" button, then press the first black key on the left side of the keyboard to switch the Reverb ON or OFF. When the reverb switch is OFF, the reverberation intensity of the piano is the default value.

Vibrato

Press and hold the "Function" key, then press the second black key on the left side of the keyboard to switch the Vibrate ON or OFF.

Sustain

Press and hold the "Function" key, then press the third black key on the left side of the keyboard to switch the Sustain ON or OFF.

Note: The sustain of "Function" + the 3rd black key is a short sustain effect,

which is different from the pedal sustain, pedal sustain is a long sustain effect. When the pedal and "Function" + the 3rd black key are used at the same time, the rear operator takes effect.

MP3

1. Inserting USB drive: Insert the USB drive that contains MP3 files into the USB interface. The screen will display "USB connecting" and then display the current song title on the USB drive when it is finished connecting.
2. Selecting music files: Hold down the "MP3" key and rotate the encoder to select the music file.
1. Playing music files: Press the "MP3" key to start or stop playing the current MP3 music.

Demo

1. Encoder selection: Press and hold the "MP3" and "Function" keys at the same time, then rotate the encoder to select different demo songs.
2. Quick selection: Press and hold the "MP3" and "Function" keys at the same time, then press one of the 88 piano keys to select demo songs from 1 to 88.
3. Start/Stop demo songs: Press and hold the "MP3" and "Function" keys at the same time, then release them to start or stop the currently selected demo song.
